Applicant: Lauper et al.  
Appl. No.: 10/560,258  
International Filing Date: June 10, 2004  
Title: CASTING MACHINE  
Attorney Docket No.: HRG-PT027 (G 5789pct/us)  
Pub. No.: US 2006/0191660 A1  
Pub. Date: August 31, 2006

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on October 3, 2006, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication includes a material error, as the assignee name includes a typographical error.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The typographical error in assignee name is an Office error, but it is not a material Office error under 37 CFR 1.221. The error is not a material Office error because the typographical error does not affect the understanding of the publication. The application is clearly understandable to one of ordinary skill in the art reading the application and claims. The mistake does not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

Applicants should not file requests for corrected publication that include errors in assignment information or missing assignment information. See MPEP § 1130.

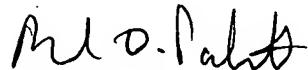

The applicant is advised that a “request for republication of an application previously published” may be filed under 37 CFR 1.221 (a). Such a request for republication “must include a copy of the application compliance with the Office’s electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18 (d) and the processing fee set forth in § 1.17 (i).” If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18 (d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB  
Commissioner for Patents  
P.O. Box 1450
